

YOUR
ADVANTAGE

- Ergonomic design. A real asset when operating and reading.
- Suitable for numeric keypads and membrane keyboards.
- Prepared for the assembly of eurocards 100 x 160 mm.
- Recessed control area to protect the membrane keyboard.
- Versions with ample space for large assemblies.
- Raised section giving space for easy installation of cable grommets and plug connectors.
- Version with attachment for digital readouts, measuring equipment, encoders etc.

ERGONOMIC AND FUNCTIONAL.

The OKW desk case range covers many different fields of application.

Choose a case that will fully meet your specific requirements concerning tilt and size of the control panel.

We perform low-cost machining of the aluminium front panels according to your specific requirements.

APPLICATIONS

Measuring and control engineering, systems for data collection on the job and on machines, medical and laboratory technologies, industrial control systems, communications equipment, access and security controls, data systems engineering,

EMC

Cases marked with \neq are available with aluminium metallization on demand. A snap-in pin is used for secure bonding. See pages 207-209.

MODIFICATIONS
AS PER
CUSTOMER'S
REQUIREMENTS

Machining on modern CNC-controlled machines. Lacquering, Silk screen and tampo printing. See pages 210-213.

DESIGN

Two-part case with closed top. Control area recessed by 0.8 mm.

Fastening pillars for PCBs or keyboards in the top and base.

Case parts are assembled by 4 self-tapping screws.

Suitable for numeric keypads and membrane keyboards.

STANDARD COLOURS

Off-white, RAL 9002.

Black, RAL 9005.
